MEMORANDUM FOR: Chief, Development Branch, DPD

25X1A

SUBJECT: Single Side Band Radio for [REDACTED]

25X1A

25X1A

1. In anticipation of continued operations with the [REDACTED] the capability of having radio equipment to effect recall of a mission is considered most desirable. As the vulnerability of the [REDACTED] obviously has increased and will continue to increase, there may be times when late intelligence, received after the [REDACTED] departs, would make it wise to effect recall.

25X1A

2. It is understood that single side-band radio equipment would be capable of doing this job. It is requested that you investigate the feasibility of installing this equipment in the [REDACTED] together with the cost and performance degradation factors involved.
